

Warm Greetings from Srinivas College of Physiotherapy,

General Education Credit Course intends to bridge the gap in general education credits that any Indian educated therapists will have. Due to recent change in credential evaluation system in US, it is mandatory for all Indian educated physical therapists to have his/her general credits in par with US standards to work in any part of the country. Half of the lacking General Credits can be earned through credit based exams like CLEP or DSST.

Srinivas College of Physiotherapy will be launching Prometric's Credit by exam programme (DSST) in its campus in Mangalore Shortly. This will be the first test centre in India to offer General Credits for those who want to pursue their career in USA. Please find the following URL to visit DSST official website.
